Dear Business Owner/Manager

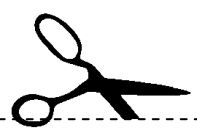

I am a private party seeking a source of waste cooking / fryer oil for the purpose of re-cycling it for my personal, non-commercial use as a legal and environmentally safe alternative fuel.

I will remove your used waste cooking oil at no cost to you, in a professional manner, on a schedule that will be at your convenience. The removal process is safe, quiet, clean, and odorless especially if removed in the original plastic 5-gallon containers. If the waste oil is pumped from your storage barrel or dumpster, any unlikely spills or mess that may occur will be thoroughly cleaned up by me.

If you agree to have me remove your waste oil, the arrangement will be mutually beneficial. You benefit by having your waste oil removed at no cost or liability. I will benefit by recycling the waste oil into an environmentally safe and legal fuel for my personal use. I understand that you may cancel this arrangement at any time.

I would appreciate your consideration on this matter. If interested, I can be contacted at: _____ (please leave message).

Thank you.
